FastPhite Pulses

FastPhite Pulses is a liquid fertiliser based on a more efficient and readily available form of phosphorus, known as potassium phosphite. Benefits are increased plant & root development, better yields & quality & improved plant nutrient health.

Analysis (w/w):

Phosphorus Pentoxide (P ₂ O ₅) -	30.0% (38.0% w/w)
Potassium Oxide (K ₂ O) -	3.9% (5.0% w/v)
Boron (B) -	0.300% (0.375% w/v)
Manganese (Mn) -	0.60% (0.75% w/v)
Molybdenum (Mo) -	150 mg/l

Application Rate:

2.5 - 5.0 l/ha in a minimum of 200 l/ha of water.
Rates expressed as field hectares.

**To be used only where there is a recognised need.
Do not exceed recommended application rate.**

Crop Safety:

FastPhite Pulses has been tested on a wide variety of crops in a variety of growing situations and has shown excellent crop safety. As with all new products, however, it is a wise precaution to test crop reaction on a small scale before making large scale applications onto growing crops.

Tank Mixing:

FastPhite Pulses is physically compatible with most pesticides. Check by mixing a small amount in the correct ratio adding the product to the water followed by pesticide. Crops can be susceptible to scorch from mixtures of Fast-Phyte Pulses and pesticides applied during periods of stress.

Conditions of Supply:

All goods supplied by us are of a high quality and we believe them to be suitable, but as we cannot exercise control over their storage, handling, mixing or use or of the weather conditions before, during or after application which may affect the performance of the goods, all conditions and warranties, statutory or otherwise, as to the quality or fitness for any purpose of our goods are excluded and no responsibility will be accepted by us or re-sellers for any failure in performance, damage or injury whatsoever arising from their storage, handling, application or use. These conditions cannot be varied by our staff or agents whether or not they supervise or assist in the use of such goods.
