

Nutrel Flowable Product

Mixing Instructions:

SHAKE CONTAINER WELL BEFORE USE. This product is widely compatible with other chemicals and will disperse in water with a little agitation. If using as part of a crop spray programme, follow this sequence:

1. Water
2. Product
3. Pesticide

To test physical compatibility mix the products in the ratios to be used in a small container before performing the operation in the spray tank. For best results spray when crop is in an actively growing state. During hot weather spray early morning or late evening. This product is manufactured to a high quality specification, any residue is readily dispersible, rinse bottle with water and add to spray tank.
